* PEACE is not opposed to hunting, climbing, caving, boating, water or snow skiing, operation of ATVs, jet skis, motorbikes, farm equipment and other activities that are legal, but add risk to students who participate, and thus generate liabilities. So we ask you to check your student’s insurance for exclusions of coverage for hazardous activities and check your homeowners for protection of you against injuries that may happen on your property that create liability.

You can find most any kind of specialty insurance on line or asking your property and casualty agent. If he or she believes your student is not covered they may advise the student to take extra insurance before participating. The cost of said insurances would be the student’s responsibility.

Many exchange students have taken gun safety classes, obtained hunting & fishing licenses, driven snowmobiles, mountain bikes, jet skis, and the like; but we ask you to be prudent in seeing that they are properly insured and ask their parents to give permission by email (copying PEACE) allowing their engagement in things that may be wonderful opportunities to learn and experience but, nevertheless, risks their parents may wish to deny their minor children (under 18).

I/we, the undersigned, authorize any government agency, school, medical facility, employer or criminal/credit check agencies to release information held on me/us as requested by the DOS designated sponsor program in order to determine our suitability to host. Attached or copied to the empty space on the front and back of this form (as needed) are copies required documents including our drivers licenses, concealed carry permits, hunting license, gun registration, and any other ID that permits us to legally conduct our affairs in activities that may be considered dangerous enough to require licensing or registering. By asking you to prove state or federally required licensure, protects both of us and is confidential between us.
